## FEATURED PROJECTS

### Custom Tooled PDM

When new vehicle features changed electrical needs without adding space, we engineered and delivered a custom PDM in just 12 weeks.

### Recall Service Kits

Issues arising in the field demand a rapid response. Chief supplied 3D-printed prototypes within days and delivered production parts in a matter of weeks.

### Sealed Plug & Play VCU Assembly

When standard parts didn't fit, we re-engineered an off-the-shelf component into a sealed solution that boosted protection and performance.
