

## LASER MARKING

### GUIDELINES

We provide custom laser marking on the covers of all sizes of the BRIC® (excludes BRIC mini). Logos, instructions, schematics, lot codes, and other markings can be added per your specification. Keep in mind that it must fit within the red boundaries outlined below. Our laser marking is a permanent, high resolution monochromatic/ grayscale, but can be prone to abrasion and is not meant to be UV resistant. Text size is legible to 1.0 mm height. Submit artwork in any standard electronic format.

### > Keep in Mind When Designing BRIC Covers

The images above show digital replicas of laser marking designs from the past year. These are just a few examples of what we can create for you. Contact our engineering team today to discuss custom layouts and possibilities. Please note that more complex designs may incur additional charges.
