WARNING : CALIFORNIA PROP 65 - CANCER & REPRODUCTIVE HARM

Prop 65, also known as the California Safe Drinking Water and Toxic Enforcement Act of 1986 is a proposition enacted to protect the state of California's drinking water from being contaminated with chemicals known to cause cancer, birth defects or other reproductive harm. Prop 65 requires special warnings to Californians about exposures to these chemicals.

In response to the California Safe Drinking Water and Toxic Enforcement Act of 1986, Chief Enterprises, is providing a warning of the potential risks associated with Prop 65 from the purchase and use of products distributed by Chief Enterprises, Inc.

This statement does not necessarily mean that our products will cause cancer, birth defects, or other reproductive harm. Furthermore, we believe our products are not harmful when used as designed.

However, Chief relies completely on our suppliers for compliance documentation and due to the excessive costs for testing against more than 800 chemicals and the likelihood the list of chemicals will continue to change our suppliers have decided not to test against Prop 65, at this time.
